

Dear Soylent,

My name is Wen-Rui, and I am the Head of Outreach of CalSol, UC Berkeley's Solar Vehicle Team. We are a student engineering team that designs, builds, tests, and races high performance Solar Cars all over the globe against the world's top universities. I am reaching out to you in hopes of building a mutually-beneficial partnership between CalSol and Soylent.

We recently exhibited our vehicles at the Worlds Fair Nano at San Francisco Pier 70 and noticed Soylent's presence at the fair. We felt that Soylent's image of supporting a fast-paced lifestyle aligned with CalSol's mission as a race team. The team will be racing at the Formula Sun Grand Prix 2017 in the Circuit of the Americas in Texas. Considering the hectic race schedule, Soylent products will be extremely beneficial to us to achieve our peak performance as a race team.

Would your company be interested in supporting our team and sponsoring us with Soylent products? Your support will help us tremendously.

More information about our team and sponsorship opportunities can be found in our Sponsorship Package in the following link. Please let me know if you have any questions

Looking forward to hearing back from you!

Best,

Wen-Rui

CalSol Head of Outreach
